

Please do NOT allow the state NO Call list rules to be superceeded by federal rules. My father was suffering from Alzheimer's Disease and was easily influenced by any marketing calls until we put him on the no-call list. It was a godsend. In addition, I do not want to be harrassed by phone calls after purchasing goods or changing services. The proposed petition will threaten my privacy and personal decision ability. Before the no-call program our evenings and meals were constantly interrupted and necessitated unplugging the phone. Please help us guard our privacy and protect the at-risk elderly.
